

Board for Professional Engineers and Land Surveyors

Title 16, California Code of Regulations

Amend Section 438 of Title 16, California Code of Regulations, as follows:

438. Waiver of Fundamentals Examination.

(a) An applicant for licensure as a professional engineer whose qualifications meet all requirements of the code and rules of the Board will be allowed to appear for only the second division of the written examination prescribed by Section 6755 of the Code if he or she meets one or more of the following requirements:

(1) Holds valid licensure as a professional engineer in another branch in California.

(2) Holds valid certification as an engineer-in-training in another state obtained by passing a written examination which normally requires a minimum of eight hours to complete and the content of the examination is designed to test the candidates knowledge of fundamental engineering subjects, including mathematics and the basic sciences.

(3) Is a graduate of an approved engineering curriculum and submits satisfactory evidence to the Board that he or she has fifteen (15) years or more of additional engineering work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing engineering tasks under the direction of a person legally authorized to practice in an applicant's branch of engineering.

(4) Is a graduate of a non-approved engineering curriculum or an approved engineering technology curriculum and submits satisfactory evidence to the Board that he or she has seventeen (17) years or more of additional engineering work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing engineering tasks under the direction of a person legally authorized to practice in an applicant's branch of engineering.

(5) Is a graduate of an approved engineering curriculum and an approved post-graduate engineering curriculum and submits satisfactory evidence to the Board that he or she has fourteen (14) years or more of additional engineering work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing engineering tasks under the direction of a person legally authorized to practice in an applicant's branch of engineering.

(6) Is a graduate of a non-approved engineering curriculum or an approved engineering technology curriculum and an approved postgraduate engineering curriculum and submits satisfactory evidence to the Board that he or she has sixteen (16) years or more of additional engineering work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing engineering tasks under the direction of a person legally authorized to practice in an applicant's branch of engineering.

(7) Is the holder of an earned doctorate in engineering in a curriculum at a university or college where the undergraduate engineering curriculum in the same branch of engineering is an approved engineering curriculum; or is serving in a tenure-track faculty position in an approved engineering curriculum at the level of Assistant Professor or higher.

(b) An applicant for licensure as a land surveyor whose qualifications meet all requirements of the code and rules of the Board will be allowed to appear for only the second division of the written examination prescribed by Section 8741 of the Code if he or she meets one or more of the following requirements:

(1) Holds valid licensure as a professional civil engineer in California.

(2) Holds valid certification as an engineer-in-training obtained by passing a written examination which normally requires a minimum of eight hours to complete and the content of the examination is designed to test the candidate's knowledge of fundamental engineering subjects including mathematics and the basic sciences.

(3) Is a graduate of an approved land surveying curriculum and submits satisfactory evidence to the Board that he or she has fifteen (15) years or more of additional land surveying work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing land surveying tasks under the direction of a person legally authorized to practice land surveying.

(4) Is a graduate of a non-approved land surveying curriculum and submits satisfactory evidence to the Board that he or she has seventeen (17) years or more of additional land surveying work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing land surveying tasks under the direction of a person legally authorized to practice in land surveying.

(5) Is a graduate of an approved land surveying curriculum and an approved post-graduate land surveying curriculum and submits satisfactory evidence to the Board that he or she has fourteen (14) years or more of additional land surveying work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing land surveying tasks under the direction of a person legally authorized to practice in land surveying.

(6) Is a graduate of a non-approved land surveying curriculum and an approved post-graduate land surveying curriculum and submits satisfactory evidence to the Board that he or she has sixteen (16) years or more of additional land surveying work experience satisfactory to the Board that has been gained in addition to graduation, or any other education experience, and while performing land surveying tasks under the direction of a person legally authorized to practice in land surveying.

(7) Holds valid certification as a land surveyor-in-training in another state obtained by passing a written examination which normally requires a minimum of eight hours to complete and the content of the examination is designed to test the candidate's knowledge of fundamentals of land surveying including mathematics and the basic sciences.

(c) An applicant for a California certification as an engineer-in-training or a land surveyor-in-training who holds valid certification in another state obtained as in (a)(2) or (b)(7) above may be issued a California certificate.
