Ms. Bruning,

Thanks for your respond. I just find the minutes of August 2010 Board meeting today and have comment on the paragraph which is related to my case. Would you please see my comment in below and correct the meeting minutes after verifying with Mr. Gary Duke.

“Keivan Salehzadeh explained that he is an applicant of the Professional Engineering examination and was denied admittance because he did not meet the Engineer-in-Training requirement. He stated he is a license engineer in the state of Maryland and does not understand why he needs to take the EIT examination. Gary Duke explained the Board does not have discretion on this matter. Mr. Salehzadeh restated his issue **and referred to Board Rule 6759 as supportive document for his appeal**. President Modungo suggested Mr. Salehzadeh send correspondence to the Board office so his issue can be addressed properly. Mr. Salehzadeh stated he did not receive a formal letter from the board **in response to his Appeal Letter**, but he will send his information in to the Board as well as leave a letter with the Board at this time. Mr. Duke noted he would be happy to discuss the provisions of the law with him afterward.”

Should I send the information to Mr. Brown per Mr. Modungo’s request?

Thanks for your consideration.

Best Regards,

Keivan Salehzadeh

(The items in **bold italics** are the requested amendments provided by Mr. Salehzadeh.)
