**Once you passed all examinations required for licensure**

Once you have received your NCEES results, please refer to the link on your NCEES record indicating “what to do next” for further information.

Professional Engineer

If your NCEES results show that you have passed the examination, you will need to submit a Notification of Passage of National Examination to the California Board. Please keep in mind that once we receive that document, we will then need to verify the information on your record to ensure that you have satisfied all requirements for licensure. Once it has been determined you are qualified for licensure, you will be placed on the next licensing list. Licensing lists are finalized in the middle of each month with the intent of issuing licenses by the end of the month.

Civil Engineer/Land Surveyor

If you have passed the required NCEES examination, the CA state examination(s), and have satisfied all requirements for licensure, you will be placed on the next licensing list. Licensing lists are finalized in the middle of each month with the intent of issuing licenses by the end of the month.

A formal Certificate, which will include your license number, which will be prepared and sent to you within 4-6 weeks.

Please be patient and refrain from calling the Board during this busy time. Calling our office will only delay our reviews and licensing runs.
