## NCEES seeks licensed civil engineers

NCEES is seeking licensed civil engineers to participate in a standard-setting study for the Principles and Practice of Engineering (PE) Civil exam, which is used throughout the United States for licensing purposes. To qualify, volunteers must be licensed professional engineers practicing in the civil engineering discipline.

The standard-setting study will take place May 15–16, 2015, in Clemson, South Carolina. Travel and lodging expenses will be paid by NCEES. Selected volunteers will review and rate the difficulty of items that will be included on the updated exam. The volunteers' responses will help NCEES determine the passing score for the PE Civil exam.

To volunteer, complete a short online questionnaire at [ncees.org/PEstandards](http://ncees.org/PEstandards).

## ABOUT NCEES

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, territories, and the District of Columbia. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to protect the health, safety, and welfare of the U.S. public.*

*NCEES helps its member licensing boards carry out their duties to regulate the professions of engineering and surveying. It develops best-practice models for state licensure laws and regulations and promotes uniformity among the states. It develops and administers the exams used for engineering and surveying licensure throughout the country. It also provides services to help licensed engineers and surveyors practice their professions in other U.S. states and territories. For more information, please visit [ncees.org](http://ncees.org).*
