12. On or about April 5, 2005, Respondent dba CVE Engineering, Inc. contracted with
Laurie and Greg Killick for The Killick Family Trust, as owner-builder, to prepare a topographic
survey and map for purpose of constructing a new single family residence, and in about
November 2005, Respondent contracted to perform a field survey, stake the property setbacks,
and mark and identify the building corners at 1265 Combs Road, Newbury Park, California,
(Killick Project). Respondent’s contract was executed by an unregistered engineer, Francois
Rene Lussier.

13. The Killick Project’s architectural site plans, by Ron Pucillo\(^1\), were stamped approved
by the City of Thousand Oaks Community Development Department, Building Division, on or
about September 1, 2005, and by the City Planning division on or about October 24, 2005. The
approved plans show the structures first floor to have 10 feet setbacks\(^2\) from the property lines on

\(^1\) The Architect is well known in the industry as the professional who locates the residence
on a parcel and is responsible for complying with the city’s planning and building departments’
specifications and requirements for minimum setbacks, number of stories, structure height, open
space, and other requirements.

\(^2\) The planning and building department requires a 5 feet property line structural setback.
The architectural plan identifies a 10 feet setback that allows the second story cantilever overhang
(continued...)
the east and west, and the second story has a cantilever overhang.

14. On or about December 1, 2005, with a $300 retainer in-hand from Mr. and Mrs.
Killick, the Respondent surveyed the Killick Project and set stakes marking the building corners
at 5 feet from the east property line.

15. On or about February 22, 2006, the structural engineer's "Footing and Caisson Plans"
were prepared by David Awrey, RCE 32782, and are typical of a structural engineer in that they
show the foundation design but do not show foundation distance relationship to the properly lines.
The plan shows the marked caissons to be 10 feet deep.

16. On or about March 22, 2006, Respondent and the structural engineer discussed
interior foundation dimensions for caisson staking.

17. On or between March 22, 2006, and July 14, 2006, Respondent marked the exterior
and interior caisson placements, at 5 feet from the east property line, and a contractor dug and
poured caissons and a structural foundation following Respondent's staked markings.

18. On or about July 14, 2006, Mr. and Mrs. Killick found that the contractor constructed
the foundation in an incorrect location by 5 feet and began mitigating measures to correct the
error.

19. On or about August 23, 2006, Mr. and Mrs. Killick filed a complaint with the Board
against Respondent, documenting a mitigating cost of $22,165.00, as of that date, with other costs
pending, to correct the misplaced caissons and foundation to build their new home.

20. On or about August 31, 2006, an investigation was initiated by the Board against
Respondent.

and November 27, 2008, Respondent complied with the Board's investigation providing written
correspondence.

The contractor constructed the foundation in the incorrect location. Mitigating measures to correct the error caused severe economic damages and left a redundant foundation and 10 feet deep caissons 5 feet out from the built structure. Complainant refers to and by this reference incorporates the allegations set forth above in paragraphs 12 - 22, inclusive, as though set forth fully.

THIRD CAUSE FOR DISCIPLINE
(Written Contract Issued Without Signature)

24. Respondent is subject to disciplinary action under section 8780, subdivision (d), in conjunction with 8759, subdivision (a), in that on the Killick Project, Respondent failed to execute the written contract with Mr. and Mrs. Killick, or their representative, and allowed an unlicensed individual from his firm to sign the contract with the client. Complainant refers to and by this reference incorporates the allegations set forth above in paragraph 12, inclusive, as though set forth fully.
FOURTH CAUSE FOR DISCIPLINE

(Contract Failed to Include Licensee and License)

25. Respondent is subject to disciplinary action under section 8780, subdivision (d), in conjunction with section 8759(a)(3), in that on the Killick Project, Respondent failed to include his name, the licensee, and his license number on the contract.
