Executive Officer's Message

Richard B. Moore, PLS

Summer typically means a season of change for government agencies, and the Board is no exception. Board member appointments and changes to Board leadership generally renew on July 1. Summer 2025 arrives with two members leaving our Board. Mechanical engineering member Khaesha Brooks is no longer a member of our Board, and long-time public member Coby King has termed out after 12 years in the position. We wish both of them well, and we appreciate all they have provided to our Board over the years.

We also welcome two new members to our Board. We are excited to be joined by Desirea Haggard, a professional chemical engineer, who will fill our professional engineer seat, and Tom Hallinan, who will fill one of our vacant public member seats.

Additionally, we thank public member Christina Wong for serving as the Board's 2024-2025 President, as electrical engineering member Guillermo Martinez begins his term as 2025-2026 President. Long-time public member Frank Ruffino will be serving as the Board's 2025-2026 Vice President. Thank you all for being available to serve the Board in these roles.

This edition of the Board *Bulletin* highlights our annual enforcement statistics from this past fiscal year. The number of received complaints has risen, which is reflected in the increase in administrative citations and disciplinary matters identified by the Board. Board Enforcement Unit staff have been very busy this year in their investigations, and it remains to be seen how this trend will progress throughout 2025-2026.

Enforcement Actions

Citations Issued to Unlicensed Individuals: January–June 2025

Citations are an alternative to criminal prosecutions that the Board can use to enforce the laws prohibiting the unlicensed practice of engineering, land surveying, geology, and geophysics, or other activities for which a license is required. When a fine is levied with a citation, payment of the fine does not constitute admission of any violations charged but represents a satisfactory resolution of the matter, pursuant to Business and Professions Code Section 125.9(d). Code sections numbered in the 6700s, 7800s, and 8700s refer to the Business and Professions Code; those numbered in the 400s and 3000s refer to Title 16 of the California Code of Regulations. You can look up the code sections and read the laws on the Board's website: www.bpelsg.ca.gov/laws/index.shtml. All final citations are matters of public record. For a copy of the final citation order or if you have any questions, you may contact the Board's Enforcement Unit at BPELSG.Enforcement.Information@dca.ca.gov or (916) 999-3593. Please include the name of the cited person and the citation number in your request.

Citations Issued to Licensees: January–June 2025

Citations are issued to licensed engineers, land surveyors, geologists, and geophysicists when the severity of a violation may not warrant suspension or revocation of the licensee's right to practice. When a fine is levied with a citation, payment of the fine does not constitute admission of any violations charged but represents a satisfactory resolution of the matter, pursuant to Business and Professions Code Section 125.9(d). Code sections numbered in the 6700s, 7800s, and 8700s refer to the Business and Professions Code; those numbered in the 400s and 3000s refer to Title 16 of the California Code of Regulations. Formal Administrative Disciplinary Decisions: January–June 2025

A formal disciplinary decision is considered formal administrative disciplinary action against a licensee. It results from the Board's adoption of a proposed decision prepared by an administrative law judge following a hearing, a stipulated settlement agreement, or a default decision following a full investigation and the filing of an accusation. An accusation is a formal legal document that notifies a licensee of the Board's charges and allegations of violations against the licensee and that requests a disciplinary order be issued. The licensee is entitled to contest the charges at a formal hearing before an administrative law judge or to agree to a stipulated settlement. A final disciplinary decision contains findings and determinations or statements of advisements, waivers, and culpability and a disciplinary order. If there are findings of violations, the order may include revocation or suspension of the license, a stayed revocation or suspension of the license with a probationary period and terms and conditions of probation, or a public reproof. In the alternative, the decision may find that no violations or violations of a *de minimus* nature occurred and order the dismissal of the accusation. All final disciplinary decisions are matters of public record. For a copy of the final decision or if you have any questions, you may contact the Board's Enforcement Unit at **BPELSG.Enforcement.Information@dca.ca.gov** or (916) 999-3593. Please include the name of the respondent and the case number in your request.
