

SPRING 2025

BOARD FOR PROFESSIONAL ENGINEERS, LAND SURVEYORS, AND GEOLOGISTS

BULLETIN

2024 NCEES AND ASBOG NATIONAL EXAM RESULTS

Every year the Board publishes the results of all examinations to provide year-to-year comparisons. This issue features statistical results for the past six years for all California examinations, as well as the 2024 National Council of Examiners for Engineering and Surveying (NCEES) National Exam results. The report begins on page 2.

Executive Officer's Message

Richard B. Moore, PLS

By the time this edition of the Board for Professional Engineers, Land Surveyors, and Geologists *Bulletin* is released, the Board, like many organizations associated with engineering and land surveying, would have celebrated National Engineer's Week (February 16–22) and National Surveyor's Week (March 16–22). It is a good time to recognize how engineers and surveyors work to provide professional services that benefit the public.

The Board is fast approaching a milestone in issuing Professional Land Surveyor licenses. We anticipate surpassing 10,000 licenses this spring. That is quite a milestone considering that the first license was issued in July 1891.

In this edition of the *Bulletin*, we are providing our annual update on how candidates for certification or licensure perform on examinations. Additionally, we have an article from Board staff on an important change to the Professional Land Surveyors Act.

Recently, the Board revised its 2022–27 Strategic Plan and we encourage everyone to visit www.bpelsg.ca.gov/pubs/index.shtml to view the revisions.

As always, we appreciate all the interest in what is happening at the Board and encourage inquiries and feedback on how best we can continue to serve the applicants, licensees, and consumers in California.

Board Members (Effective July 1, 2024 through June 30, 2025)

President

Christina Wong

Vice President

Guillermo Martinez, PE

Public Members

Fel Amistad, Ph.D.

Coby King, Esq

Frank Ruffino

Wilfredo Sanchez

Fermin Villegas

Cliff Waldeck

Professional Members

Alireza Asgari, Ph.D., PE, SE

Khaesha Brooks, PE

Rossana D'Antonio, PE, GE

Michael Hartley, PLS

Elizabeth Mathieson, PG, CEG

Executive Officer

Richard B. Moore, PLS

Assistant Executive Officer

Tiffany Criswell

Bulletin Editor

Brooke C. Phayer

Examination Results

The Board has compiled statistical results for the most recent California examinations in our disciplines, along with historical comparisons of examination results for the previous five years. Visit the Board website at www.bpelsg.ca.gov/applicants/exam_statistics.shtml for more examination statistics.

Understanding California PLS Act Section 8771.6: Impacts on Land Surveying Practices

By DALLAS SWEENEY, PLS BOARD SENIOR REGISTRAR,
LAND SURVEYOR

During the Board's Legislative sunset review process, a bill was introduced and later combined within the Sunset Bill (AB 3253) to add section 8771.6 to the Professional Land Surveyors' Act. This section took effect on January 1. Text of PLS Act 8771.6:

In every case where any monument is found with a physical condition that is less than permanent and durable, the licensed land surveyor or registered civil engineer using that monument as control in any survey shall reconstruct or rehabilitate the monument so that the same shall be left by them in such physical condition that it remains as permanent a monument as is reasonably possible and so that the same may be reasonably expected to be located with facility at all times in the future.

(b) This section shall remain in effect only until January 1, 2029, and as of that date is repealed.

(Added by Stats. 2024, Ch. 588, Sec. 20. (AB 3253) Effective January 1, 2025. Repealed as of January 1, 2029, by its own provisions.)

What does PLS Act 8771.6 mean for the practicing land surveyor?

During a field survey, the practicing land surveyor finds monuments that are used as control in the survey. If the monuments are less than durable and permanent, this new section of the PLS Act requires the practicing land surveyor to reconstruct or rehabilitate those monuments so that they are durable and permanent and so those reconstructed or rehabilitated monuments can be located with ease in the future. Once the field survey is completed, the practicing land surveyor has the statutory responsibility to determine if they need to file a record of their survey pursuant to section 8762 or otherwise meet the exemption to file a corner record as required in section 8765, section 8771, or section 8773 of the PLS Act.

Once the practicing land surveyor completes the field survey and verifies that a record of the survey is required pursuant to section 8762, section 8764(a)(1) requires the land surveyor to describe the information about the monuments used within the survey to be shown on the record of survey. Doing so allows the practicing land surveyor to describe how the land surveyor reconstructed or rehabilitated those monuments, thereby complying with section 8771.6.

8764. Record of survey—technical requirements.

(a) The record of survey shall show the applicable provisions of the following consistent with the purpose of the survey:

(1) All monuments found, set, reset, replaced, or removed, describing their kind, size, and location, and giving other data relating thereto.

Does the county surveyor have statutory and regulatory authority involving PLS Act 8771.6?

Sections 8766 and 8773.2(a) define the statutory and regulatory authority of the county surveyor when reviewing a record of survey or a corner record, respectively.

8766. Record of survey—examination

(a) Within 20 working days after receiving the record of survey, or within the additional time as may be mutually agreed upon by the land surveyor or civil engineer and the county surveyor, the county surveyor shall examine it with respect to all the following:

(1) Its accuracy of mathematical data and substantial compliance with the information required by section 8764.

(2) Its compliance with sections 8762.5, 8763, 8764.5, 8771.5, and 8772.

(b) The examination pursuant to this section shall not require the licensed land surveyor or registered civil engineer submitting the record of survey to change the methods or procedures utilized or employed in the performance of the survey, nor shall the examination require a field survey to verify the data shown on the record of survey.

(continued on page 12)

(continued from page 11)

(c) Nothing in this section shall limit the county surveyor from including notes expressing opinions regarding the record of survey, or the methods or procedures utilized or employed in the performance of the survey.

(d) The examination pursuant to this section shall be performed by, or under the direct supervision of, a licensed land surveyor or registered civil engineer.

8773.2. Corner record—filing, review and approval, resubmittal requirements.

(a) A “corner record” submitted to the county surveyor or engineer shall be examined for compliance with subdivision: (d) of section 8765 and sections 8773, 8773.1, and 8773.4, endorsed with a statement of his or her examination, and filed with the county surveyor or returned to the submitting party within 20 working days after receipt.

Neither of those two sections authorizes the county surveyor to review or otherwise examine the submitted record of survey or corner record for compliance with section 8771.6.

It is the responsibility of the practicing professional land surveyor to determine which of the monuments are to be used as control in their surveys and if those monuments are durable and permanent or if they need to be reconstructed or rehabilitated. Additionally, it is their responsibility to properly identify any monuments that were reconstructed or rehabilitated on any submitted record of survey or corner record.

In Memoriam

In celebration of the lives and contributions of the following professionals, the Board would like to recognize professionals licensed as engineers, land surveyors, or geologists who recently passed away. This list may not include all those who have recently passed away as we rely on information from the public, other licensees, and family members. Please contact the Board regarding individuals who have recently passed.

Board Speakers Available

The Board continues its efforts to reach out to groups interested in any of the broad array of Board functions. As part of this outreach effort, we have speakers available to present at meetings and events.

Potential speakers include Executive Officer Ric Moore, PLS; Assistant Executive Officer Tiffany Criswell; Senior Engineering Registrar Natalie King, PE; Senior Land Surveyor Registrar Dallas Sweeney, PLS; and Senior Geologist Registrar Josh Goodwin, PG, CEG.

Our Enforcement, Licensing, Examination, and Outreach units all have speakers authorized to represent the Board. To request a speaker, we will need the following information: Size of group, location, time, length and type of presentation, and proposed subject matter. Appropriate advance notice is always appreciated. Current and former Board members may also appear on the Board's behalf, depending on availability.

For more information, contact Board outreach coordinator Brooke Phayer at **Brooke.Phayer@dca.ca.gov**.

The Board **Subscribers** List Reminder

Receiving email notifications regarding meetings, legislation, or e-news from the Board couldn't be easier. Simply join our subscribers list on the Board's website. You will then be connected to new editions of the *Bulletin*, notified when the Board holds meetings, and receive information related to consumers, candidates, or licensees.

Joining the subscribers list can be done in just a few easy steps:

1. Visit the Board's website at www.bpelsg.ca.gov.
2. Click on "Subscribe to the Board's Email List" in the "Quick Hits" section.
3. Enter your email address and the specified text or audio link to validate submission of your data.
4. Click on "Submit" and you will receive a confirmation email.

BOARD FOR PROFESSIONAL ENGINEERS, LAND SURVEYORS, AND GEOLOGISTS

BULLETIN

Social Media: Board Facebook, X, and LinkedIn Pages

The Board is asking for your help in getting the word out regarding its Facebook, X, and LinkedIn pages. The Board is posting information of interest to postsecondary institutions and students on a regular basis. This information includes regulatory changes, updates to our website, interesting articles, useful resources, and a host of other Board-related data.

For those institutions that communicate with students through email or some other means, we invite you to share this information with them. The Board will use these social media outlets as an ongoing way to reach our stakeholders. Thank you for your assistance in spreading the word.

Please take a few minutes to like us on Facebook and follow us on X and LinkedIn:
