National Council of Examiners for Engineering and Surveying (NCEES) Presidents Award to Executive Officer Richard Moore

NCEES Past President (2025-26) Elizabeth Beckett, P.E., who presented the award, with Richard Moore, PLS.

Executive Officer Richard Moore, PLS, was awarded the National Council of Examiners for Engineering and Surveying (NCEES) President's Award for his dedicated service to NCEES and the engineering and surveying professions. Moore was recognized on August 20, 2026, during the organization's 105th annual meeting in Henderson, Nevada. Recipients of the President's Award are chosen by the current president for their exceptional contributions to the organization and to advancing professional licensure.

Moore has been an active associate of NCEES, having served as chair and as a member of the NCEES Committee on Member Board Administrators. He has contributed to the NCEES Committee on Examinations for Professional Surveyors, the Committee on Uniform Procedures and Legislative Guidelines, and the Surveying Exam Module Task Force. Moore also dedicates his time as a volunteer for the Principles and Practice of Surveying exam development committee and the Public Land Survey System exam development committee, furthering his commitment to the continued advancement of the profession.

Board Members (Serving July 1, 2026 through June 30, 2027)

President
Frank Ruffino

Vice President
Desirea Haggard, PE

Board News

Changes in GIT and PG application process bring more examination opportunities

To support the Board's strategic goal of expanding examination and licensure opportunities, we are updating the professional geologist application and examination process. These changes align with the National Association of State Boards of Geology (ASBOG) Strategic Plan to simplify and standardize registration for the Fundamentals of Geology (FG) and Practice of Geology (PG) examinations.

California candidates for the geologist-in-training (GIT) certificate and the professional geologist license will soon be able to register for the national ASBOG FG and ASBOG PG exams without having to apply to the Board first. These exams are the first steps applicants must take to become a licensed professional geologist.

This means that candidates can register directly with ASBOG's examination vendor (Prometric) at any time using their online portal. Applicants will no longer apply to the Board to take the national ASBOG examinations.

Once the appropriate national examinations are passed and the candidate has met all education and experience requirements, the candidate would then apply for a GIT certification or professional geologist license. The requirements to pass the California Specific Exam (CSE) for geology have not changed; the candidate applying for licensure as a professional geologist would submit their application to the Board with the application fee and would then be notified by the Board of their authorization to schedule and sit for the CSE.

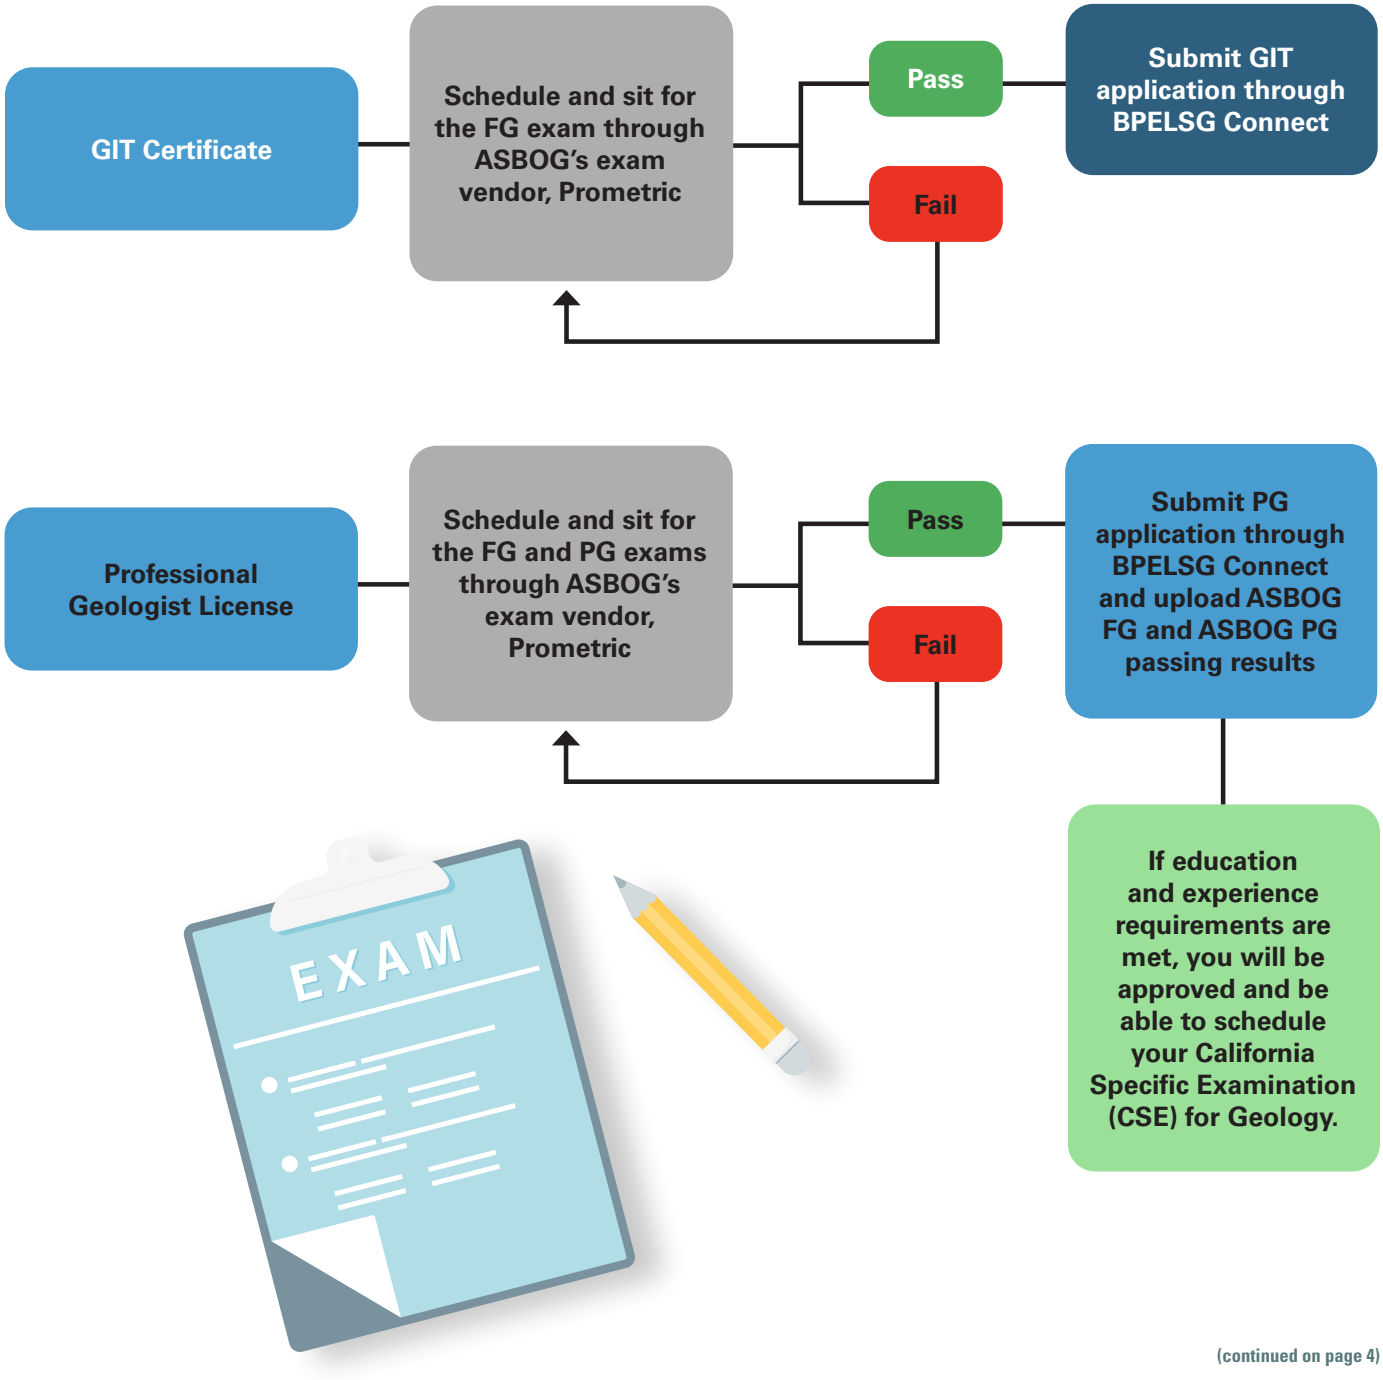

Please regularly check the Board's website, **www.bpelsg.ca.gov**, for any updates.

(continued on page 3)

Board News (continued from page 2)

This is an overview of the **NEW application process** for the GIT certification and the professional geologist license in California. To qualify for licensure, starting **November 19, 2026**, applicants will be required to pass the ASBOG FG exam and the ASBOG PG exam before applying through the Board's **BPELSG Connect** application portal.

(continued on page 4)

Board News (continued from page 3)

FAQs: New Application Process for GIT and Professional Geologist license

Q. What if I have already submitted my application to take an ASBOG exam for the spring 2027 exam cycle?

A. If you have already submitted your application, it will be processed along with all other applications we received. However, you no longer need to wait for Board approval to take the national ASBOG exams. You may register with the ASBOG as soon as their registration system is updated for California based candidates. You will then notify the Board when you pass the ASBOG exam(s), and we will complete the processing of your application.

Q. Do I need to notify the Board when I want to take the ASBOG FG or ASBOG PG exams?

A. No. You only need to notify the Board once you have passed the ASBOG exam(s). If you have not already submitted an application for licensure to the Board, you will submit it after you pass the national exam(s).

Q. What do I do if I don't pass the national exam?

A. You will need to re-register with ASBOG via the Prometric Candidate Management System **website**. You will continue to register with ASBOG until you have passed the national exam(s). You do not need to notify the Board until you have passed the national exam(s).

Q. Am I required to pass the ASBOG Fundamentals of Geology (FG) prior to being able to register and sit for the ASBOG Practice of Geology (PG) Exam?

A. No. However, passing the FG exam is required before being considered eligible for a GIT certificate; but applicants are not required to pass the FG before taking the ASBOG PG exam. If an individual wishes to take both ASBOG exams on the same day, and they happen to pass the ASBOG PG exam, but they fail the ASBOG FG exam, they will be required to pass the ASBOG FG exam before applying for the Professional Geologist license via the BPESLG Connect application portal.

Q. When can I take the California Specific Examination (CSE) for Geology?

A. After you have received passing scores on both the ASBOG FG and ASBOG PG exams, you can submit a Professional Geologist application via the Board's **BPELSG Connect** application portal. If you meet the Board's education and qualifying experience requirements, along with all other requirements (fingerprints, transcripts, laws and rules examination, and application fees), then you will be approved to sit for the CSE and will be given instructions through the BPELSG Connect system on how to schedule and pay for the CSE exam.

Board News (continued from page 4)

Celebrating Women in Land Surveying: Honoring Leadership and Achievement

The City of San Diego and California State Assembly Member Carl DeMaio recently recognized the outstanding contributions women have made in the land surveying profession. In a special proclamation, San Diego declared September 18, 2026 "Women in Land Surveying Day," highlighting the essential role surveyors play in preserving legal boundaries and supporting infrastructure across California and the United States.

Anna Rios Future Surveyors Association and Theresa Foster CLSA

The proclamation acknowledges the expertise and dedication of professional land surveyors, emphasizing their impact on public safety, property rights, and environmental stewardship. It also celebrates the leadership of women in the field, noting their increasing presence and influence in shaping the future of land surveying.

Assembly Member DeMaio also awarded a Certificate of Recognition to the Future Surveyors Foundation. This honor was presented during the seventh Women Surveyors Summit, held in San Diego, and in appreciation of the foundation's commitment to professional development, diversity, and collaboration. The foundation's efforts bring together women surveyors from across the nation, fostering a supportive community and advancing opportunities for women in the industry.

California Women Land Surveyors Proclamations from San Diego and the CA Legislature

These recognitions underscore the importance of diversity and inclusion in land surveying and encourage continued progress toward equal representation and professional excellence.

Digging Deeper: Understanding Our Certificate Holders and Licensees

We're sharing information about our in-training certificate holders and licensees. The information extends to the end of the 2025-26 fiscal year. In order, the charts identify:

In Memoriam

In celebration of their lives and contributions, the Board would like to recognize professionals licensed as engineers, land surveyors, or geologists who recently passed away.

This list may not include all those who have recently passed away, as we rely on information from the public, other licensees, and family members. Please contact the Board regarding individuals who have recently passed.

3RD QUARTER JULY - SEPTEMBER

Name	License Number	Years of Service
Engineers		
Aurelio Albaisa	TR 832	49 yrs
Land Surveyors		
Erik George Bowers	L 8571	18 yrs

Enforcement Actions

Citations Final: July-September 2026

Citations are issued to licensed engineers, land surveyors, geologists, and geophysicists when the severity of a violation may not warrant suspension or revocation of the licensee's right to practice. Citations are also issued as an alternative to criminal prosecutions that the Board can use to enforce the laws prohibiting unlicensed practice. You can look up the code sections violated on the Board's website at **www.bpelsg.ca.gov/laws/index.shtml**.

When a fine is levied with a citation, payment of the fine does not constitute admission of any violations charged but represents a satisfactory resolution of the matter pursuant to Business and Professions Code Section 125.9(d).

All final citations are matters of public record. For a copy of the final citation order or if you have any questions, you may contact the Board's Enforcement Unit at **BPELSG.Enforcement.Information@dca.ca.gov** or (916) 999-3593. Please include the name of the cited person and the citation number in your request.

Cited Person	Citation No.	Violation Code Sections	Date Final	Fine Amount	Status of Fine

Formal Disciplinary Decisions: July-September 2026

Formal disciplinary action against a licensee results from the Board's adoption of a proposed decision prepared by an administrative law judge following a hearing, a stipulated settlement agreement, or a default decision following a full investigation and the filing of an accusation. An accusation is a legal document that notifies a licensee of the Board's charges and allegations of violations against the licensee and that requests a disciplinary order be issued. The licensee is entitled to contest the charges at a formal hearing before an administrative law judge or to agree to a stipulated settlement. A final disciplinary decision containing findings of violations may include an order for revocation or suspension of the license, a voluntary surrender, a stayed revocation or suspension of the license with a probationary period and terms and conditions of probation, or a public reproval. All final disciplinary decisions are matters of public record. For a copy of the final decision or if you have any questions, you may contact the Board's Enforcement Unit at **BPELSG.Enforcement.Information@dca.ca.gov** or (916) 999-3593. Please include the name of the respondent and the case number in your request.

Respondent	Case Number	Effective Date	Disciplinary Order
UHLES SCOTT	1360-A	8/19/26	Revocation, Stayed; Probation

Board Speakers Available

The Board continues its efforts to reach out to groups interested in any of the broad array of Board functions. As part of this outreach effort, we have speakers available to present at meetings and events.

Potential speakers include Executive Officer Richard Moore, PLS; Assistant Executive Officer Tiffany Criswell; Senior Engineering Registrar Natalie King, PE; Senior Engineering Registrar Bruce Locken, PE; Senior Land Surveyor Registrar Dallas Sweeney, PLS; and Senior Geologist Registrar Josh Goodwin, PG, CEG.

Our Enforcement, Licensing, Examination, and Outreach units all have speakers authorized to represent the Board. To request a speaker, we will need the following information: size of group, location, time, length, type of presentation, and proposed subject matter. Appropriate advance notice is always appreciated. Current and former Board members may also appear on the Board's behalf, depending on availability.

For more information, contact Board outreach coordinator Brooke Phayer at **Brooke.Phayer@dca.ca.gov**.
