The Board encourages applicants to review this form with their reference providers prior to submission with the application to ensure that they have enough experience to qualify to take the examination. Please give a copy of the Geology [“Definitions of Critical Concepts”](#) to each reference provider. The completed “Independent Evaluation of Scope” forms must accompany your application.
  - Representative engineering geological reports may be required (**do not send unless requested by the Board**). The reports must be prepared wholly or in part by the applicant (Title 16 of the California Code of Regulations § 3041). If the applicant’s signature and PG seal are not on the report, a letter from one of the signatories of the report must be included to validate the applicant’s part in preparing the report. Reports must be submitted on a compact disc (CD). Draft submittal reports are not final products and are not representative of qualifying work.
  - All applicants are required to provide proof of fingerprinting when submitting applications. For more information and to download the Board specific [Live Scan Form](#) (in California) or to request Board specific hard copy [fingerprint cards](#), please visit the
